Profile Summary

Embrace the pursuit to transcend limitations, seek the opportunity that challenges you to redefine your capabilities. Dare to pioneer new technologies, for therein lies the revolution that shapes your career's legacy.

Professional Skill

- Python
- Artificial Intelligence
- MongoDB
- Google Cloud
- MySQL
- Full Stack Development

Relevant Skill

- Gathering and Interpreting Data
- Leadership
- Strategist

Education

Bachelor of Computer Engineering   *2019-2023*

Dr D Y Patil College of Engineering, Ambi, Pune

CGPA:- 8.76 (First Class with Distinction)

Work Experience

Data Science Intern At Innomatics Research Labs   *Feb 2023- May 2023*

- Utilized Flask Framework for Backend Development. Utilized Flask
- to accomplish backend project.
- Accomplished projects in Data Analysis and Machine Learning

Artificial Intelligence Engineer Intern At RadicalX   *Nov 2023 - Present*

- Currently engaged in an AI project.
- Our team has successfully created AI projects, including AI Interview Prep and Quiz Generation.

Projects

AI Interview Prep

Introducing ReX, the AI-powered interview prep tool that has been specifically developed to help aspiring Data Analysts achieve their goals. Boasting an intuitive design, ReX offers a range of robust technical training modules, user-tested refinements, and a comprehensive demo that showcases its evolution and capabilities.

Thread App Clone

- Our newly developed web app is built using the MERN (MongoDB, Express, React, Node.js) stack, which is further enhanced with Vue.js for additional functionality.
- Seamless End-to-End Experience: From signup to active participation in discussion threads, users can expect a smooth journey with no glitches or interruptions throughout the application.
- High Performance and User-Friendliness: The app is designed to be fast, responsive, and userfriendly, thanks to the use of MERN stack and Vue.js. This ensures an optimal experience for all users.

Interest

- Artificial Intelligence
- Innovation
- Writing a Thesis
